"AHB" Service LTD. is a company based in Gdansk - Poland. Our company was established in 1989, on the basis of workers mainly employed in ZUT Zgoda Świętochłowice, licence producent of Sulzer Engine. Localization „AHB" Service in Gdańsk, pallowed us to establish contacts with shipowners arriving to Gdansk.

### AHB Service | Your trusted partner in engines repair

Included is a QSPI, serial flash controller for boot loading program images or operating as an Execute in Place (XIP) engine using non-volatile external flash memory with low power. The AHB Performance Subsystem is soft IP that can be used in all the popular semiconductor technology nodes. FEATURES IP CORES PROCESSOR OPTIONS INFRASTRUCTURE

### AHB Performance Subsystem -ARM M3

Multi-layer AHB is an interconnection scheme, based on the AHB protocol, that enables parallel access paths between multiple masters and slaves in a system. This is achieved by using a more complex interconnection matrix. Key advantages are: • You can develop multi-master systems with an increased available bus bandwidth.

The AES-CCM can be mapped to any ASIC technology or FPGA device (provided sufficient silicon resources are available). The following are sample ASIC pre-layout results reported from synthesis with a silicon vendor design kit under typical conditions, with all core I/Os assumed to be routed on-chip.
