L. Taylor Course description: The purpose of this course is the rigorous development of the calculus of one variable, starting from a rigorous development of the real numbers. This means that the emphasis of the course will be on proofs, and a lot of time will be spent on practicing how to write proofs.

Math 3210: Foundations of Analysis I -
Spring 2014. Instructor: Richard Wade
Email: wade at math dot utah dot edu
Course Description: Math 3210 has two
aims. The first is to make some concepts
from calculus mathematically rigorous:
we'll see how the real numbers can be
defined axiomatically, and get to grips
with how differentiation and integration
