Industrial policy focuses on the most productive pattern of investment, and thus it favors business segments that promise to be strong international competitors while helping to develop the...

Why the U.S. Needs an Industrial Policy

The authors call the conventional wisdom into question by making four claims: (1) the activities targeted by industrial policy are increasingly governed by decentralized production networks rather than markets or hierarchies, (2) "network failures" are therefore no less threatening to industrial dynamism than

INDUSTRIAL POLICY AMERICAN-STYLE

Traditional examples of industrial policy include subsidizing export industries and import-substitution-industrialization (ISI), where trade barriers are temporarily imposed on some key sectors, such as manufacturing. By selectively protecting certain industries, these industries are given time to learn (learning by doing) and upgrade.
