The remainder of the lesson focuses on the trig ratios found on the two special triangles 30-60-90 and 45-45-90 (Math Practice 7). One of the Pre-Calculus teachers at my school told me that one of the best things that students could bring to his class would be a larger understanding of trig, particularly as it relates to 45-45-90 and 30-60-90 triangles.
