### **Logic A God Centered Approach**

Sheridan makes logic about as easy as one can be in writing logic. Because of the words "A God-Centered Approach" in the book's title, most non-religious universities are unlikely to widely adopt the book. That is a shame. Most of life is not difficult to understand; most people only make it sound that way for ill-logical reasons.

Though it is very conducive to being used as a textbook, Vern Poythress' Logic: A God-Centered Approach is part logic textbook and part theology of logic. It comes as the newest installment in a long line of "God-centered approaches" offered by Poythress (see also science, language, and sociology). Much like those volumes, this one draws on John Frame's triperspectivalism which is something we can all rejoice about.

However, Poythress correctly maintains that we must not fall into either a non-Christian view of transcendence (i.e., logic doesn't apply to God) or a non-Christian view of immanence (i.e., we can capture God with logic). Thus, we must maintain that our reasoning does apply to God without becoming gods and making God subject to our reasoning.

And contrary to a secular and naturalistic understanding, logic does not exist independently on its own but is rather rooted in the nature and character of God. With the goal of presenting a Christian view of logic, Vern Poythress has written Logic: A God-Centered Approach to the Foundation of Western Thought. The book is written in two parts.
