Direct comparison of the new NDNS data with current EARs for energy is not possible as specific EARs are provided for each year of age rather than for the broader age categories used in the NDNS . However, average energy intakes of 11-18 year-olds were below the EAR for the lowest age within this category (i.e. 11 years), suggesting that average intakes in this age category do not exceed recommendations.

According to the NDNS survey which was published in 2012: 2% of adults and children are vegetarian (not eating meat or fish)*, this amounts to over 1.2 million individuals of a UK population of 62.3 million**. (*National Diet and Nutrition Survey, 2012. ** Office for National Statistics).

Facts and Figures | The Vegetarian Society

The legal age of consent in the United States at the federal level is 16 years. Sexual relationships with a person aged less than 16 years amount to statutory rape, and it is punishable by the law. Apart from the federal law on statutory rape, each of the states in the US has its local laws regarding consensual sex.
